

PRO-FOCUS DRILL, CUTTING AND TAPPING OIL

Pro-Focus Drill, Cutting & Tapping Oil is a high quality cutting oil for metals such as aluminium, copper and stainless steel. Keeps cutters, taps, drills and blades of cutting and sheet metal shears sharper for longer and extends the service life. Eases machining, reduces tool wear and gives a beautifully finished surface.

- Extends the life of milling, tapping and drilling.
- Reduces friction and heat generation.
- Gives a nice finished surface.
- Also suitable for aluminium, copper and stainless steel.
- Drilling and cutting work is easier and more accurate.

User instructions:

Shake well before use. Apply to places where drilling, milling, tapping or cutting is required. After machining remove excess product with a cloth.
